### SOFTWARE QUALITY ASSURANCE - SQA – Automation-Lead/Manager

#### Professional Synopsis

- More than **13.6 years** of experience in Software Testing in the areas of client /server, web-based and desktop technology
- Having **10+ years of experience** in automation testing using various tools and scripting languages such as Test **Complete, Selenium, Coded UI, Cypress, Katalon, playwright** etc. with scripting languages as **VBSRCIPT, Java, C#, Jscript, Python** and so on. Working on **MAQS** modular framework with **Sauce lab setup in VSTS**.
- More than 4+ years' experience working on **Mobile Automation** using **Appium** and **MAQS** framework (Android + IOS).
- Also have experience in performance testing using **Jmeter** tool.
- Have worked on automation tool **Selenium** (web driver) with **java** language.
- **Have worked on complete CI-CD using Jenkins as well as VSTS.**
- Worked on **Coded UI** with **C#** and **selenium integration** for cross browser compatibility.
- Designed various automation framework of different type from scratch i.e. **BDD, TDD, Robot Framework, Spectflow, Page Object Model, keyword driven, modular, data driven and hybrid.**
- Flexible and versatile to adapt to new environment and work on any Project Assigned.
- Sound understanding of SDLC & STLC processes.
- Willing to go the extra mile for project & organizational benefits.
- Strong and effective communication skills and have ability to manage and assist.
- Firm believer in teamwork and always takes initiative, self-starter, and quick learner.
- Working on MEAN stack technology also using angular JS, type script, mongo-DB to build a central dashboard for the center.
- Have one-year experience working with **Power BI** to create various charts and reports on Mobile and web platform.
- Learning **robot framework** with Python Scripting
- Worked on setting up and executing releases for different environment in azure pipeline and maintaining its result on centralized dashboard on azure for each project.
- Setting up executing all automation script on Sauce lab for 3 different environments of OS and deployment (QA, Stage, Prod etc.)
- Setting up executing all mobile automation script on Sauce lab for various versions of android and IOS.
- Worked on python automation with Pytest, docker, kubernetes on AI and ML projects
- More than **5 years' experience working as QA Project Manager** and more than 8 years handling teams.

#### Work Experience

Employer	Sector	Designation	Duration
UBC ( Consultant with JASHIT)	HealthCare	Lead Automation Engineer	April 2024 To Present
Rayden Interactive Studio	HealthCare	Senior Automation Engineer	March 2023 To April 2024
Cognitive Scale	AI And ML	Technical Lead-QA & Automation	Oct 2021 to March 2023
The Toro Company	(OMS) My turf & My Toro	Automation Test Lead	June 2019 to Oct 2021
Schlumberger	Oil & Gas	Senior Automation Engineer	March 2016 to till May 2019
Persistent System Limited	HealthCare	Sr. Software Engineer/ Lead	May 2014 to March 2016
Symphony Teleca	ERM/ OMS	QA Engineer/ Senior QA Engineer	Nov 2011 to May 2014

#### Technical Preview

- Languages : VBSCRIPT, Core Java, Jscript, C#, Java, JavaScript, Python
- Web Technologies : VB.net, PHP, html
- Operating Systems : Windows /2000/XP/Vista, Windows 7, Windows 8, windows 10
- Servers : Windows Server 2003/2008 R2 (32 & 64 Bit)
- Databases : Oracle PL/SQL, SQL server 2008, Derby, Mongo DB
- Testing Tools : Load Test, HP Quality Center, JMeter, JIRA, Process Monitor, Clear Case, Selenium, Coded UI & Test Complete, Power BI (Dashboard Tool)
- Automation Framework: Keyword, data driven and hybrid
- Mobile Framework : Hybrid framework with MAQS
- Performance Architecture: Load Test, JMeter, Test Complete

## Noteworthy Contributions

- Created a developed the automation framework using selenium and also have done its complete integration to VSTS for complete CI-CD pipeline
- Developed the automation framework from scratch using new technology coded UI with selenium integration which gave a huge success in performance in execution, scripting, cross browser and so on.
- Played a major role in creating automation framework for **Agilent-Chemstation** automation project and got awarded for the same.
- Developed automation framework for **Agilent- ECM** Automation project from scratch to end and got award for it.
- Prepared the automation framework from scratch for **Vituoso** and **Roche - Ventana** projects and got appreciated.
- Also prepared JMeter scripts for performance testing from scratch for **Virtuoso** and **Roche - Ventana** projects.
- Was awarded for efficient management in core committee for **Visiotech** (national level event) in college.
- Awarded **UMATTER** award in TORO technology centre for excellent work in building team and work culture.

## Overall Responsibility

- Assigning Task to the team using TFS and VSTS
- Configuring and running the test cases in BDT environment which gives daily execution for regression and sanity automation
- Reviewing the task done by the team
- Preparing the end to end scripts for test cases and integrating the things with VSTS.
- Defect logging, Tacking & Retesting after fix for Sanity, Regression & UAT test cases.
- Test lab management in Quality Center.
- Daily execution consolidating and reporting
- Automation test script preparation using test complete or selenium tool.
- Test data preparation using SQL and selenium scripts
- Performance Test script preparation using Jmeter
- Performance report generation using Process monitor and Jmeter reports.
- Browser compatibility testing
- Automation of functional and regression test cases
- Designing strategy for manual test cases for not automated test cases
- Preparing end to end automation testing with the help of framework and preparing various recovery scenarios for it.
- Preparing various combination of environments required for testing and automating the product.
- Preparing & presenting demos to clients of automation scripts and preparing user guide documents for project.
- Maintaining daily data consolidation from various sources **VSTS, Big-Query** to display latest data on common dashboard on **Power BI**

## Scholastics

- **Bachelor of Engineering (IT)** from S.R.T.M. UNIVERSITY (M.S), INDIA with **Distinction** in 2010
- **MBA (PGDIT - Information Technology)** from Symbiosis Distance Learning University (SCDL), Pune.

## Certifications & Trainings

- **ISTQB** Certified Test Professional (Foundation Level) from Pune in July 2011.
- Completed training on Oracle PL/SQL.
- Completed training on Java from NIIT institute Mumbai

## Personal Dossier

Date of Birth : 19/09/1987  
Passport Number : H8803675

Passport Validity : 07/02/2029  
Location : Pune
