### RESEARCH ON FINANCIAL MANAGEMENT AND COST ACCOUNTING

Financial Accounting has come into existence with the development of large-scale business in the form of joint-stock companies. As public money is involved in share capital, Companies Act has provided a legal framework to present the operating results and financial position of the company. Financial Accounting is concerned with the preparation of Profit and Loss Account and Balance Sheet to disclose information to the shareholders. Financial accounting is oriented towards the preparation of financial statements, which summarises the results of operations for select periods of time and show the financial position of the business on a particular date
