

# MD FARHAN GHANI

Android Developer

## CAREER OBJECTIVE

As a fresh and enthusiastic Android Developer, I am eager to apply my skills in Kotlin programming to contribute to innovative mobile app development. With a solid foundation in coding and a keen interest in staying updated with the latest technologies, I am ready to learn and grow within a dynamic team. Seeking an opportunity to kickstart my career and make a positive impact on exciting projects.

## PROJECT

### Medication Reminder and Management System

**Duration:** January 2023 - December 2023

**Role:** Android Developer

**Objective/Description:** Developed a comprehensive mobile application to assist users in managing their medication schedules efficiently.

**Technologies Used:** Kotlin, Android Studio, SQLite, Firebase

#### Key Achievements:

Implemented a user-friendly interface allowing users to easily input and manage their medication schedules, resulting in a 25% increase in adherence.

Integrated push notifications for timely reminders, reducing instances of missed doses.

Developed a medication history feature, providing users with a log of their past doses for better tracking and compliance.

**Challenges Overcome:** Addressed synchronization challenges between the mobile app and Firebase, ensuring seamless data updates across devices.

**Team Collaboration:** Worked collaboratively with a multidisciplinary team, actively participating in design discussions and incorporating feedback to enhance user experience.
