

# Ahmed Hamdy Eldeep

CIVIL ENGINEER

Menoufia, Egypt | +201211323715 | +201100001349 |  
engahmed198514@gmail.com | 02 September 1985

## SUMMARY

Dynamic and results-driven Civil Engineer with 16+ years of leadership experience in accelerating the delivery of complex infrastructure and construction projects. Proven ability to manage the full project lifecycle, from strategic planning and resource allocation to on-time, on-budget completion. Expertise in optimizing workflows, leading high-performing teams, and implementing rigorous quality control to consistently exceed project goals in fast-paced environments.

## EDUCATION

**Bachelor of Civil Engineering** | Menoufia University  
Graduation Year: 2008

## WORK EXPERIENCE

### Project Manager

El-Raeda Contracting Company, Egypt | Jan 2018 – Present

Spearheaded the successful execution of diverse, large-scale projects from conception through completion, ensuring alignment with strategic business objectives.

## Major Projects:

**New Administrative Capital & Cairo University Compound:** Directed the construction of 12 residential buildings, managing all phases from design approval to final handover.

**Russian Port Infrastructure (East Tafreaa):** Led critical infrastructure development, coordinating complex logistical and engineering requirements.

**Assiut University Water Tank:** Oversaw the construction of a vital 300 m<sup>3</sup> underground firefighting water tank, including all connections and the installation of firefighting equipment, meeting stringent university specifications.

**Agricultural Banks Fire Systems:** Executed the implementation of fire extinguishing networks across 10 agricultural bank branches.

**Damietta Power Station Fire System:** Managed the installation of the fire extinguishing system for the power station.

## Key Achievements & Responsibilities:

- Led end-to-end project lifecycle management, consistently delivering projects within scope and quality expectations.
- Optimized resource allocation and procurement processes, managing contracts and negotiations effectively with clients and vendors.
- Directed multi-disciplinary engineering teams, contractors, and subcontractors, fostering a collaborative and productive on-site environment.
- Championed rigorous adherence to safety, environmental, and quality assurance (QA/QC) standards across all projects.
- Developed comprehensive project schedules and financial plans, meticulously monitoring progress and controlling costs.
- Proactively identified and resolved site conflicts, minimizing project delays and enhancing operational workflows.

## Project Manager / Construction Manager / Site Engineer

Wadi El-Nile Contracting Company | 2009 – 2018

Managed and supervised a portfolio of significant public infrastructure projects across Menoufia, demonstrating progressive responsibility and technical expertise.

### Major Projects:

**El-Bagour Central Hospital:** Contributed to the successful delivery of a key healthcare facility, including operating rooms, radiology departments, specialized hospital finishes, and medical equipment installation.

**31 Train Stations in Menoufia:** Managed the improvement and efficiency enhancement of multiple railway stations across the region.

**3 Schools in Menoufia:** Led the construction of educational facilities throughout the governorate.

**7 Public Health Units in Menoufia:** Oversaw the development of essential healthcare facilities.

**14 Youth Centers in Menoufia:** Led the construction of recreational and educational facilities for youth.

### Key Achievements & Responsibilities:

- Served as the primary liaison, coordinating effectively with clients, consultants, and government bodies to ensure project alignment and regulatory compliance.
- Approved detailed project schedules, scope definitions, and technical designs, ensuring feasibility and adherence to standards.
- Provided hands-on supervision of all on-site construction activities, guaranteeing alignment with approved designs and specifications.
- Managed the evaluation and processing of financial claims and contractor invoices, maintaining budget integrity.

- Implemented robust monitoring systems for project KPIs, risks, and compliance measures.
- Mentored and supervised junior engineers, technicians, and support staff, enhancing team capabilities.

## Site Engineer

El-Nile for Roads and Bridges | 2008 – 2009

Gained foundational site engineering experience on a major transportation infrastructure project.

### Major Project:

**Cairo–Alexandria Desert Road:** Supervised critical construction elements including box culverts, footings, and retaining walls.

### Key Achievements & Responsibilities:

- Oversaw earthworks operations and the precise layering of road embankments, ensuring compliance with technical specifications and testing procedures.
- Enforced strict implementation of Health, Safety, and Environment (HSE) standards and project specifications on site.
- Generated detailed daily and weekly progress reports, effectively communicating site status and findings to senior management.

## CERTIFICATIONS & COURSES

---

- PMP (Project Management Professional) - Exam Pending
- Primavera P6 – Project Planning
- SAP2000 – Structural Design
- AutoCAD – Engineering Drawings
- PMP Fundamentals – Project Management

## SKILLS

---

Construction Project Management

Cost Estimation & Budget Control

Contract Negotiation & Administration

Site Supervision & Execution

Primavera P6

AutoCAD

SAP2000

Risk & Quality Management (QA/QC)

Stakeholder & Government Coordination

Leadership & Strategic Planning

Strong Communication & Problem Solving

OSHA Safety Standards Compliance

Environmental Protection Awareness
