

Fayaz Mohammed – SQL Developer

Email: Fayaz0186@gmail.com | Mobile: +91 8341386786 | Location: Hyderabad,India

Professional Summary

Experienced **SQL Developer with 5+ years of expertise** in database development, performance tuning, reporting, and production support. Strong proficiency in writing complex SQL queries, optimizing database performance, and developing enterprise reports using SSRS and Jasper. Proven track record of handling large datasets, resolving production issues, and delivering scalable data solutions in the insurance domain.

Technical Skills

- **Database:** SQL Server, SSMS
 - **Languages:** SQL, T-SQL,
 - **Reporting:** SSRS, Jasper Reports, iReport
 - **ETL:** SSIS
 - **Tools:** Visual Studio, GitLab
 - **Big Data (Basic):** PySpark , Power BI
 - **Version Control & Collaboration:** GitLab (branching, commits, merge requests)
 - **Concepts:** Query Optimization, Performance Tuning, Indexing
-

Professional Experience

Implementation Engineer

Vertafore India Pvt Ltd | 2022 – Present

Application Support Engineer

Satra Software Solutions Pvt Ltd, Hyderabad | 2022

Software Engineer

Apps Pvt Ltd, Hyderabad | 2019 – 2021

Project Experience

1. AmeriLife

Domain: Insurance

Tools: SQL Server, SSRS, Power BI, Jasper, GitLab

Responsibilities:

- Developed and optimized **complex SQL queries, stored procedures, and functions**
 - Performed **query performance tuning** using execution plans, indexing, and optimization techniques
 - Designed and deployed **Jasper reports and dashboards**
 - Worked on **Integration, Admin Configuration, and Compensation modules**
 - Supported **data onboarding processes** in Portal applications
 - Improved report performance by optimizing backend queries
 - Leveraged Excel and SQL scripts and improve data quality.
-

2. AFLAC

Domain: Supplemental Insurance

Tools: SQL Server, SSRS, JasperReports

Responsibilities:

- Validated financial data using **SQL scripts in NIPER and PDB modules**
 - Identified and resolved **data discrepancies and inconsistencies**
 - Handled **production support issues, defects, and change requests**
 - Developed and maintained **SSRS and Jasper reports**
 - Performed **data reconciliation and integrity checks**
 - Collaborated with teams to analyze requirements and deliver solutions
-

Key Achievements

- Optimized complex SQL queries, improving performance and reducing execution time
 - Enhanced reporting efficiency through **query tuning and indexing strategies**
 - Delivered high-quality solutions by resolving **critical production issues within SLA**
 - Improved data accuracy through **effective validation and reconciliation processes**
-

Education

- **B.Tech (ECE)** – Nimra College of Engineering & Technology (2016)
-

Additional Strengths

- Strong knowledge of **SDLC and Agile methodology**
- Expertise in **database design, normalization, and constraints**

- Experience handling **large datasets and high-volume transactions**
-

Personal Details

- **Name:** Mohammed Fayaz
- **Languages:** English, Telugu, Hindi
