OBJECTIVE

Accomplished **Civil Engineer** with over **15 years of diversified experience** in structural engineering, site supervision, technical office operations, and project coordination. Successfully delivered **complex civil and infrastructure projects** across Egypt and the Gulf region for both consultancy and contracting firms. Proven ability to lead construction teams, optimize resource allocation, and ensure structural compliance with **international codes (ACI, BS, ECP)**. Adept at managing all project phases, from pre-construction planning to final handover, while maintaining strict quality and safety standards.

EDUCATION

Bachelor of Civil Engineering

Cairo University – Egypt | Graduated: 2010

- **Grade:** Good
- **Graduation Project:** Very Good (Structural Design)

EXPERIENCE

❖ Project Manager – Owner’s Representative

Ivory Developments, Cairo, Egypt | Apr 2023 –Present

Project: Ivory Business Park

Key Achievements:

- **Oversaw** end-to-end **project execution** as the **Owner’s Representative**, ensuring alignment with **project objectives, timelines, and approved budgets**.
- **Directed cost control operations** including **budgeting, cost tracking, variance analysis, and preparation of detailed financial reports**.
- **Reviewed and approved contractor invoices; monitored expenditures** to ensure **budget compliance** and minimize **cost overruns**.
- **Coordinated with multidisciplinary teams** including **consultants, contractors, and vendors** to optimize **performance and cost-efficiency**.
- **Conducted** detailed reviews of **BOQs, contract terms, and change orders** to ensure **contractual and financial compliance**.
- **Contributed to procurement planning and implemented value engineering initiatives** to enhance **Return on Investment (ROI)**.
- **Tracked project milestones, monitored progress, and ensured timely delivery of deliverables** within **scope, schedule, and cost constraints**.

❖ Project Manager – Engineering Consultant

Engineering Consultant, League of Arab States, Cairo, Egypt | Mar 2020 – Mar 2023

Key Achievements:

- **Managed** a major **engineering consultancy project** from **initiation** to **final handover**, ensuring delivery **on time** and **within budget**.
 - **Coordinated** with **contractors, clients, and stakeholders** to meet **project scope, timeline, and quality standards**.
 - **Led** a **multidisciplinary team** of **civil, architectural, electrical, and mechanical engineers**.
 - **Reviewed** and approved **technical submittals, shop drawings, material approvals, and responses to RFIs**.
 - **Supervised construction work** to ensure compliance with **design specifications, building codes, and safety regulations**.
 - **Monitored** the **project schedule** using **project management tools** and conducted regular **progress tracking**.
 - **Prepared project reports, risk assessments, and technical evaluations** for stakeholders.
 - **Managed contractor payment applications, reviewed change orders, and ensured contract compliance**.
 - **Oversaw project close-out** including **As-Built drawings, completion certificates, and handover documentation**.
-

❖ Senior Structural Engineer (Consultant)

CDEC - Center of Design and Engineering Consulting, Cairo, Egypt | Oct 2017 - 2020

Project: IRR Tank 12000M3 & Special Villa & Pump Station.

Client: New Giza Company

Contractors: CRC& EL SHAMS & EL HAZEK & UNIVERSAL & TABARK

Key Achievements:

- Oversaw execution of **reinforced concrete structures** including water tanks, villas, and pumping stations.
 - Reviewed and approved **shop drawings, bar bending schedules (BBS), and material submittals**.
 - Coordinated with MEP and architectural disciplines to **resolve technical conflicts**.
 - Issued **non-conformance reports (NCRs)** and followed up on corrective actions.
 - Monitored **progress milestones**, maintained site documentation, and submitted detailed project reports.
-

❖ Senior Civil Engineer

IMEX – Engineering Consultants Group, Cairo, Egypt | Mar 2016 – Jun 2017

Project: Maadi Gardens Compound

Client: Urban Development Real Estate Investment.

Contractors: Urban Development Real Estate Investment.

Responsibilities:

- Supervised **RC works**, finishing activities, and **final handover** procedures.
- Conducted **quantity surveying**, prepared invoices, and managed procurement.
- Monitored construction progress vs. baseline schedule using Primavera.
- Participated in **contract review** and ensured compliance with technical specifications.

❖ Structural Site Engineer

Manazel Construction & Trading Co., Riyadh, Saudi Arabia | Jun 2012 – Jan 2016

Key Projects:

- VIP Hall – King Fahd Security College
- Cardiac Imaging Center – Ministry of Health
- Water Conveyance Line – National Water Company

Client: Ministry of Health KSA & Nation Water Company

Contractors: Manazel Company Construction and Trading

Achievements:

- Led structural execution on major governmental and infrastructure projects.
- Coordinated with local authorities and consultants to ensure code compliance.
- Performed **material take-offs**, resource planning, and daily site supervision.

❖ Civil Site Engineer

El Bahy Construction & Trading Co., Cairo, Egypt | Nov 2010 – May 2012

Project: Canadian International College (CIC) – EGP 50 Million

Client: CIC

Contractors: El-BAHY for contracting

Duties:

- Supervised structural elements: foundations, beams, slabs, and columns.
- Verified **technical drawings**, monitored site progress, and handled subcontractor coordination.
- Prepared weekly reports and participated in site meetings with consultants.

Core Competencies

- Structural Supervision (Concrete & Steel)
- Design Interpretation & Code Compliance
- Quantity Surveying & Cost Management
- Technical Office Operations
- Project Planning & Reporting
- Quality Control & HSE Compliance
- Conflict Resolution & Stakeholder Coordination

Software & Tools

- AutoCAD
- SAP2000
- Primavera P6 (Beginner)
- Microsoft Office Suite (Excel, Word)

Courses & Certifications

- Structural Analysis Using SAP2000
- AutoCAD for Civil Engineers
- Primavera P6 Basics – Project Planning
- Microsoft Excel for Engineers
