Electrical Engineer  
[licenseNo.784198993917040]

Approved from PEC(PAK) as  
Electrical Engineer  
[license No.ELECT/47778]

## Experiences

### → Nov-25 to Present

#### Senior Electrical Engineer

Compass Contracting Co Ltd. –Jeddah, KSA

Supervised all electrical site activities in accordance with approved drawings, project specifications, and Saudi standards (SEC, SBC, NEC). Responsible for installation and inspection of LV/MV systems including SMRMU, MVSWGR, MDBs, SMDBs, DBs, cable trays, conduits, and complete earthing systems.

Coordinated effectively with consultants, main contractors, and subcontractors to ensure smooth site execution. Reviewed and implemented approved shop drawings, method statements, and material submittals.

Carried out testing and commissioning of electrical systems including power and lighting, earthing and grounding resistance tests, insulation resistance (IR) tests, continuity tests, and functional testing.

Supervised installation of capacitor banks, VFDs, ATS, and generators. Monitored site progress and prepared daily and weekly progress reports while ensuring full compliance with site safety and HSE requirements.

Coordinated with QA/QC teams for inspections and snag clearance. Managed material planning, site requisitions, and installation scheduling. Assisted in preparation of as-built drawings and final handover documentation, attended technical meetings, resolved site technical issues, and ensured quality workmanship with strict adherence to project timelines
