

ESLAM ALI

EXPERIENCE

SAHARA FOR CONSTRUCTION

(Maersk portsaid)

SAFETY OFFICER

Sep 2023 – Present

- Assisting management in assessing the risks of each construction phase
- Inspect any mechanical equipment before entering the work site
- Create appropriate barriers around workplaces
- Inspection of lifting equipment
- Appointing marksman in places where equipment meets individuals and training them on job tasks
- Identify safe places for rest, prayer, and smoking areas
- Determine parking places away from individuals and do not obstruct the path of equipment
- Coordinate with the civil engineer daily in a short meeting to find out the details of the day's work and what must be done to avoid potential risks during those works
- Place appropriate plasters everywhere
- Determine a personnel portal and a secure path to administrative offices
- Ensure the safety of the environment by preventing any equipment maintenance or operation so that there is no withdrawal of organic materials into the work site
- Determine designated places for personal waste and a designated place for iron, wood, etc.
- appropriate protective equipment
- □Inspecting mechanical and electrical tools before starting work
- Design an identification ID for each individual, indicating the name, position, and numbers of those responsible for emergency services within the site
- Issuing work permits in coordination with the consulting engineer, whether it is drilling, electrical, loading, unloading, or any construction work
- Giving an induction lecture to new workers
- Giving a daily toolbox talk to all site workers to raise awareness of potential risks during the work day
- Ensure that all work personnel wear
