PROFESSIONAL SUMMARY

A highly motivated and adaptable professional seeking a position where I can contribute my dedication, fast learning ability, and proven productivity. I bring extensive experience in site management, strong problem-solving skills, and the ability to thrive in dynamic environments.

I excel at building professional relationships, adapting to operational changes, and working collaboratively to achieve company goals. My experience spans across managing crushers, workshops, asphalt plants, and coordinating with regulatory bodies, including the Ministry of Industry and Mineral Resources and the Environmental Center.

I am eager to grow within a stable and supportive work environment that fosters professional development and values effective communication, accountability, and team spirit.
