📍 Iqama: 2390696934

📍 Address Saudi Arabia

Summary

Dedicated Electrical Technician with 10+ years of diversified experience across substation installation, sewage treatment plants, industrial facilities, and major Aramco and Sabic projects. Proven expertise in electrical systems installation, grounding, cable termination, troubleshooting, and maintenance. Strong safety record with multiple awards for performance and HSE compliance. Skilled in interpreting wiring diagrams, executing power and control systems, and delivering reliable technical support under demanding project environments. Committed to quality, teamwork, and continuous improvement while ensuring operational efficiency and project success.

Work Experience

Electrical Technician

Hassan Allam Construction Saudi LLC | 2021 – Present

Project: Madinah STP & MI Umluj

- Performed installation and maintenance of electrical systems across STP facilities.
- Executed power and control cable termination with precision and compliance.
- Conducted grounding, lighting installation, and outdoor switchyard activities.
- Interpreted wiring diagrams and implemented system controls effectively.
- Diagnosed faults and resolved technical issues to minimize downtime.
- Ensured strict adherence to safety procedures and HSE standards.

Electrical Technician

Eram Arabian Ltd, Al-Khobar | Oct 2018 – Dec 2020

Projects: Aramco GOSP 12, GOSP 6, GOSP 2, SAFCO, HADEED, IBN RUSHD, KEMYA, IBN SINA, Tasnee

- Executed electrical installation works across multiple Aramco and Sabic sites.
- Performed cable termination and electrical equipment maintenance tasks.
- Supported commissioning activities ensuring systems met project standards.
- Followed technical drawings and site specifications accurately.
- Identified and rectified electrical faults to maintain operations.
- Collaborated with site teams ensuring safe and timely project execution.

Education

Intermediate

BISE Gujranwala (2010)

Matric

BISE Gujranwala (2008)

Skills

- Electrical System Installation
- Power Cable Termination
- Control Cable Termination
- Grounding Implementation
- Equipment Maintenance
- Fault Diagnostics
- Wiring Interpretation
- Panel Installation
- Switchyard Operations
- Industrial Electrical Works
- STP Electrical Works
- Aramco Work Procedures
- Sabic Work Standards
- Tool Handling Expertise
- Safety Procedures Knowledge

Certifications

- **Certificate of Appreciation** – SHEDGUM GOSP-6 Electrical Equipment Replacement.
- **Rigging & Lifting Training** – Valid until Feb 2027.
- **HSE and Safe Work System Performance Recognition** – Hassan Allam Construction.

Electrical Technician

MSA For Trading & Construction, Riyadh | Apr 2015 – Sep 2018

Projects: Substation Installation, PPI0, PPII, PP7, Al-Kharaj 9028

- Installed electrical components for substation and industrial projects.
- Completed switchgear, panels, and control system installations.
- Handled outdoor switchyard and grounding activities with accuracy.
