Professional Summary

Experienced AI Data Annotation and Quality professional with hands-on expertise in training, quality assurance, and large-scale data annotation for machine learning and computer vision projects. Proven ability to develop and deliver training programs, coach new team members, maintain high annotation quality standards, and collaborate cross-functionally to improve operational performance.

Strong background in quality control, dataset preparation, and process improvement, combined with previous experience in journalism, customer service, and marketing. Recognized for exceptional attention to detail, leadership skills, and the ability to thrive in fast-paced, deadline-driven environments.

Professional Experience

Training Team Member

Micro Engineering Tech Inc. | Feb 2025 – Present

- Assisted in designing and delivering onboarding and training programs for newly hired data annotators.
 - Guided new labelers through project guidelines, annotation standards, and quality requirements to ensure successful onboarding.
 - Provided continuous coaching, feedback, and performance support to improve annotation accuracy, productivity, and compliance with client expectations.
 - Collaborated with Project Managers, Quality teams, and Team Leads to update training materials and address knowledge gaps.
-

Quality Control Technician

Micro Engineering Tech Inc. | July 2024 – Feb 2025

- Performed comprehensive quality assurance reviews to ensure annotation consistency, accuracy, and compliance with project specifications.
 - Identified quality trends, documented recurring issues, and recommended process improvements.
 - Mentored annotators by providing constructive feedback and coaching to improve performance.
 - Worked closely with cross-functional teams to maintain high-quality deliverables across multiple AI projects.
-

Data Annotation Specialist

Micro Engineering Tech Inc. | May 2023 – July 2024

- Specialized in 3D data annotation and dataset preparation for AI and machine learning applications.
 - Produced high-quality annotations while consistently meeting productivity and accuracy targets.
 - Worked on complex annotation projects requiring strong attention to detail and adherence to strict quality standards.
 - Contributed to improving model performance through accurate and consistent data labeling.
-

Call Center Representative
