## WORK EXPERIENCE

### Station Supervisor

"Ntex Transportation" is a B2B eCommerce platform designed for rural India. It facilitates eCommerce companies in reaching customers in remote rural areas through a crowdsourced logistics network. During my journey at Amazon Lastmile Station and SSD Station, I progressed from a station associate to a station supervisor in Kerala, India, honing my skills in various operations such as picking, packing, stowing, receiving, YMS, outbound, inbound, cycle count, CPT, reverse logistics, team management, motivation, planning, hiring, and client management. Throughout, I remained focused on achieving targets, constantly striving for improvement.

### Station Associate

Ntex Transportation Pvt Ltd, India

- Handling Deliverboys
- Receiving inbound
- Outbound Management
- Amazon LastMile operations

I commenced my career at "Ntex Transportation," a B2B eCommerce platform tailored for rural India. It serves as a conduit for eCommerce enterprises to access customers in remote rural areas via a crowdsourced logistics network. Subsequently, I transitioned to Amazon Lastmile Station, where I collaborated with an exceptional team. This experience bolstered my confidence and expertise in lastmile activities and enhanced my knowledge of the eCommerce platform.
