ABOUT ME

Ahmad Saiful Haqqi, or Saiful, is a passionate product designer with a strong affinity for automotive design, product research, styling products. Graduated from Product Design at Institut Teknologi Bandung (ITB) in January 2019, Saiful has an extensive experience in Design field. He had diverse work experiences include designing & project managing boat companies in Indonesia & United Arab Emirates for almost 5 years combined, and also he did some freelancing as a graphic designer, which showcasing his versatility and creative prowess.

Saiful's skill set is a testament to his dedication to the field. Proficient in sketching, idea generation, and design thinking, he has a keen ability to bring concepts to life. His proficiency extends to 3D modeling & rendering and CAD drawing, making him a well-rounded designer capable of taking projects from concept to completion. He mostly uses Rhinoceros 3d for modeling & CAD drawing, and renders mostly in Keyshot. He also can operate AutoCAD, 3ds max with Corona Renderer very well.
