

# AYMAN BASHIR

Senior civil engineer

📍 Al Yarmuk, Riyadh, Saudi Arabia    📞 +966500643121    ✉️ AYMAN\_BASHIR@OUTLOOK.COM

## SUMMARY

Result oriented civil engineer offering a focused ability to evaluating and developing innovative solutions to engineering problems. Looking to secure a challenging position within a reputable construction company that offers access to bigger and intriguing projects.

## KEY COMPETENCIES

- Process improvement
- Data-driven strategic planning
- Cost-benefit analysis
- Report writing and presenting
- Critical thinking skills
- Excellent communication skills
- Strong interpersonal skills
- Proactive and self-motivated
- Exceptional organisational skills

## PROFESSIONAL EXPERIENCE

### Site Engineer

**ZOZ Construction and Investment Ltd.**

Dec 2024 - Jun 2025

Saudi Arabia, Jeddah AL-Balad, Jeddah Historic District (JHD)

**Projects:** Ring Road & Aleigance Square |F10362 Ministry of Culture - II JHD

### Responsibilities and expertise on the position:

- Oversaw execution of critical site activities including excavation, backfilling, compaction, asphalt paving, road marking, and interlock installation.
- Monitored quality control and compliance with ASTM, MOT, and project-specific standards across all phases of civil and infrastructure works.
- Coordinated directly with project engineers and subcontractors to ensure alignment between design documents and site implementation.
- Supervised the safe execution of demolition works including milling, saw cutting, and removal of asphalt layers and interlocks.
- Managed installation of pavement signage, traffic markings (arrows, stop lines, parking lines), and safety features per Ministry requirements.
- Executed extensive landscape-related work, including excavation for tree pits, shrubs, and ground cover areas as per MOA and Jeddah Municipality standards.
- Coordinated the excavation and grading of hardscape areas to the required reduced levels, and ensured accurate site preparation for planting and softscape elements.

## Site Engineer

### Black Shadow for Contracting Co.

Saudi Arabia, Riyadh, As Sulayyil. Az Zulfi

Aug 2025 - Dec 2025

**Projects: Periodic Vehicle Technical Inspection Station**

#### **Responsibilities and expertise on the position:**

- Supervised and coordinated site activities related to earthworks, sub-base, base course, asphalt paving, curbstone, and interlock installation.
- Managed daily site operations and ensured that all construction works were executed according to approved drawings, specifications, and project schedule.
- Coordinated with surveyors to ensure accurate setting out, levels, and alignment before starting each construction activity.
- Supervised site preparation works including grading, clearing obstacles, and preparing the formation level according to design requirements.
- Monitored backfilling operations with sub-base and base-course materials, ensuring proper layer thickness, compaction, and compliance with project specifications.
- Supervised asphalt paving works including the Binder Base Course (BBC – 6 cm) and Bituminous Wearing Course (BWC – 4 cm), ensuring correct levels, temperature, and compaction requirements.
- Managed installation of curbstones and interlock works, ensuring proper alignment, level control, and finishing quality.
- Checked and verified material quantities, progress of work, and prepared daily progress reports.
- Coordinated with consultants and quality control engineers for inspections, approvals, and testing of completed works.
- Ensured that all construction activities complied with approved method statements, quality standards, and safety regulations.
- Reviewed shop drawings and IFC drawings to ensure proper execution and resolve any technical issues at site.
- Assisted in preparing as-built information and documentation for completed works.

## Bin Ayesh Group for Contracting

Jan 2024 - Jun 2024

Site Civil Engineer

Saudi Arabia, Neom

### THE LINE

#### ► **THE SPINE( HIGH SPEED RAIL )**

- (WO-#35 LOT-8A) with AL-AYUNI CO.
- (WO-016) with AL-YAMAMA CO.

#### ► **THE LINE AT GAYAL**

- (W0-013) with AL-YAMAMA CO.

#### ► **PROJECTS SCOPE**

- Infrastructure Development
- Earthworks Phase
- Excavations works with different depths.
- Cutting and blasting works for hard rocks.
- External and Internal Haulage works for excavated materials.

#### **Responsibilities and expertise on the position:**

- conducting a Toolbox Talk (TBT) for the subcontractors who recently joined our project.
- Analyze the elements and activities of the project, their association and arrangement, study the value and size of the project, prepare a timetable and arrange procedures.
- Utilizing heavy construction equipment and various methods to excavate, transport, place, and compact the soil or rock materials.
- Conducting Rocks Classification.
- supervision on rocks drilling and blasting operation.
- Initiate the relevant Permit to Work documentation and signatures.
- Keep up to date on review of Facilities and HES procedures.
- Monitor the ongoing works with the contractor and ensure compliance with Permit to Work procedures.
- Support the ongoing construction activities by displaying a good awareness of HSE issues and imparting that protocol to the HSE site manager for control of the same.

**Civil Engineer**  
**MURTADA MUAZ CONSULTING CO.**

Full-time  
Nov 2021 - Apr 2023

**Responsibilities and expertise on the position:**

▶ Site Management:

- Oversee and manage day-to-day construction activities on the site.
- Ensure compliance with project specifications, codes, and quality standards.
- Coordinate and supervise construction activities to meet project timelines.

▶ Project Planning:

- Assist in the development of project plans, including scheduling, resource allocation, and budgeting.
- Collaborate with project managers and stakeholders to understand project goals and requirements.

Design and Documentation:

- Review and interpret engineering drawings, blueprints, and specifications.
- Prepare and maintain accurate project documentation, including daily progress reports and site records.

▶ Quality Assurance:

- Conduct quality control inspections to ensure work meets established standards.
- Identify and address any issues that may affect the quality or progress of the project.

▶ Safety Compliance:

- Implement and enforce safety protocols on the construction site.
- Conduct regular safety meetings and inspections to ensure a secure working environment.

▶ Material Management:

- Coordinate the procurement and delivery of construction materials.
- Monitor and manage inventory to ensure an adequate supply of materials on-site.

▶ Communication:

- Communicate effectively with project teams, contractors, and stakeholders.
- Provide regular updates on project progress, challenges, and resolutions.

▶ Problem Solving:

- Identify and resolve construction-related issues in a timely and efficient manner.
- Collaborate with the project team to find innovative solutions to challenges.

**Site Road Engineer**  
**WADI AL-JUNDI CONTRACTING CO.**

JUL 2023 - OCT 2023

**Responsibilities and expertise on the position:**

▶ Project Planning:

- Collaborate with project managers to develop detailed project plans, including timelines, resource allocation, and budget estimates.
- Analyze project requirements and propose solutions for road design and construction.

▶ Site Inspection and Surveying:

- Conduct site surveys to assess topography, soil conditions, and other factors influencing road construction.
- Inspect existing road conditions and identify areas requiring repair or improvement.

► Design and Engineering:

- Develop road design plans using engineering software and tools.
- Ensure compliance with local regulations, safety standards, and environmental considerations.

► Material Selection and Testing:

- Select appropriate materials for road construction, taking into account factors like traffic volume, soil type, and climate.

## EDUCATION

**University of Science and Technology - Khartoum, Sudan** • 2015–2021 **B.Sc Honors in Civil Engineering**

## LANGUAGES

Arabic  
Native.

English  
Proficiency in English, both written and verbal.

## AREA OF EXPERIENCE
